Sand from the *Rio Collection*

## Roller shades

A contemporary and stylish window treatment that combines superior functionality with a clean and elegant aesthetic.

Shades are available in a variety of fabric colors and textures. Choose from sheer, translucent, and blackout fabric options.

### Sheer

- Open weaves preserve views to outside and filter sunlight
- Ideal for rooms where you don't need complete privacy

### Translucent

- Tighter weaves transform harsh daylight into a soft, filtered glow
- Provides increased privacy for spaces like bathrooms

### Blackout

- Opaque fabrics block light from entering the space
- Ideal for bedrooms and media rooms for complete privacy

## Top treatment options

**Roller shade with fascia—**  
for a complete, finished look

- Fabric-wrapped fascia matches the roller shade fabric

**Roller shade without fascia—**  
for windows that will use a separate, custom top treatment

- Versatile design that works with cornices, swags, drapery, or valances

## Fabric collections

Serena® roller shades are available in over 75 fabrics, including cool hues and bold colors that pop.

**Palette** (blackout and translucent) a wide array of colors ranging from nature-inspired hues to vibrant bolds (blackout fabrics are the same color on both sides)

**Sheerlite 3 and Sheerlite 5** (sheer) solar screen fabrics with two-toned color weaves

**Hue** (blackout) a timeless color palette with classic neutrals and standard bolds (fabric is dual-sided with a white backing)

**Monomer** (sheer) delicate linens in warm neutrals

**Bistre** (sheer) textured linens in simple, classic tones

**Format** (sheer) smooth fabrics in colors that range from sophisticated whites to deep neutrals

**Ream** (sheer) a warm selection of bolds with a subtle shimmer

**Loom** (translucent) woven, natural fibers in warm earth tones

Check out our wide range of colors at [www.lutron.com/Serena](http://www.lutron.com/Serena) or download the **Lutron Fabric Collections app** on the App Store.

**Note:** Light transmittance can affect color appearance of sheer and translucent fabrics.

## Easy maintenance

- Innovative headrail simply tips forward to reveal the battery tray—without taking the shade down

Tip down the headrail.

Change the batteries and tip headrail back into place.

## Honeycomb shades

A stylish, functional, automated shade that adds convenience, enhances your décor, and saves energy.

When selecting a shade fabric, you don't need to sacrifice fashion for function. Whether you want to cut glare, add insulation, or block sunlight, you can choose from a beautiful palette of colors and textures that will meet those needs, all while adding a signature look to every space.

	<p><b>Light-filtering – Single-cell</b></p> <ul style="list-style-type: none"> <li>• Transforms harsh daylight into a soft, filtered glow</li> <li>• Provides varying levels of privacy from the outside</li> <li>• Saves energy with insulating fabric and design</li> </ul>
	<p><b>Light-filtering – Double-cell</b></p> <ul style="list-style-type: none"> <li>• Allows some light to filter into the space</li> <li>• Saves even more energy with double-cell insulating design</li> </ul>
	<p><b>Room-darkening – Single-cell</b></p> <ul style="list-style-type: none"> <li>• Blocks light from entering into a space</li> <li>• Creates complete privacy from the outside</li> <li>• Saves the most energy due to aluminum lining</li> </ul>

\* Matching cordless manual shade options are also available.

## Fabric collections

Serena® honeycomb shades are available in a variety of opacities and colors.

- Cyprus** (light-filtering or room-darkening) traditional neutrals
- Monaco** (light-filtering or room-darkening) warm tints in spun lace
- Rio** (light-filtering or room-darkening) a variety of colors from whites and tans to bold hues that pop
- Sedona** (light-filtering) airy sheers in a natural palette
- Prague** (light-filtering) earth tones paired with woven linen
- Napa** (light-filtering) textured, soft neutral tones and rich browns

Check out our wide range of colors at [www.lutron.com/Serena](http://www.lutron.com/Serena) or download the **Lutron Fabric Collections app** on the App Store.

**Note:** Light transmittance can affect color appearance of light-filtering fabrics.

## Easy maintenance

Our exclusive Tap n' Tilt™ technology makes changing the batteries a breeze, without ever removing the shades.

Simply press the release buttons, allowing the headrail to tilt forward.

Change the batteries.

Snap the headrail back into place.

**Serena® honeycomb shades**

# Effortless energy savings

Lowering shades in the summer prevents the sun's rays from heating up a room, while raising them in the winter captures heat from those rays, helping you save energy and money.

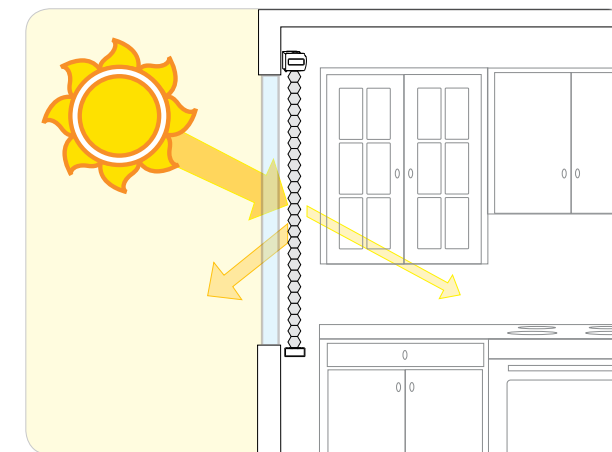

Serena honeycomb shades capitalize on that energy savings. In fact, they can double the insulation of your windows.

Serena honeycomb shades have pockets that trap air, providing superior insulation when lowered. They come in a variety of styles, and as you can see from the following chart, deliver varying R values depending on the style.

## Honeycomb shades

### Summer energy savings

Reflect summer sun and keep inside air cooler

### Winter energy savings

Prevent heat loss in winter, keeping inside air warmer

## The wireless RF remote control

# Control from anywhere in the room

### Radio frequency (RF) remote control

**An RF wireless control operates via radio frequency**, allowing flexible control of your shades from anywhere in the room. This remote is ideal for use with shades installed behind a drapery, a valance, or a cornice because the remote's signal doesn't require line-of-sight to the shade for it to operate flawlessly.

You can choose from a single-group Pico® wireless control or a 4-group control.

### Single-group RF remote control

This option allows you to control a single shade or multiple shades with one button press.

You can:

- use the Pico® as a hand-held device
- mount it wirelessly to a wall
- place it on a tabletop pedestal

Pico wireless control with a tabletop dual pedestal

Pico wireless control with a tabletop pedestal

Hand-held Pico wireless control

Pico wireless control with a Claro® wallplate

### 4-group RF remote control

This remote has four buttons. Each button can be programmed to a single shade or to a select group of shades that you want to control at the same time.

This control is only available as a hand-held device and can't be wall-mounted or placed on a pedestal.

## The Smart Bridge and Lutron app

# Control from anywhere in the world

With the new Smart Bridge from Lutron, you can control your shades from anywhere in the world using your mobile device. Simply plug the bridge into your wireless router and download the free Lutron App for the ultimate in shade control.

And with the ability to set timeclocks to adjust your shades automatically at certain times of day, you can truly automate your shade control. This feature adds a measure of security, giving the impression that you are at home even if you're on vacation.

# See how easy it is to:

- Measure for Serena® shades
- Choose the control that's best for you
- Install the shades
- Program the control
- Change the batteries
