

Roller Shade Battery Requirements by Shade Size	
Shade Width	Batteries Required
21" - 25 7/8"	6 D Alkaline
26" - 96"	8D Alkaline
Ranges Shown are for outside mounted roller shades	
To determine battery requirements for inside-mounted shades, subtract 1/8" from width.	
If the shade has fascia, subtract an additional 1/4" from width.	
In rare instances the # of batteries needed may vary from our calculations due to engineering decisions made to ensure optimal shade operation.
