Wood blind button

Assign a Pico Wireless Control to the Shade/Blind

1. Tap the shade/blind button on all shades/blinds you want assigned to the control. The shade/blind button illuminates green.

2. Hold the Close or Privacy (Close) button on the Pico wireless control for about 10 seconds until the shade/blind button blinks and turns off.

Adjust the Shade's Upper and Lower Limits/Blind's View and Privacy Slat Positions (Note: Shade/Blind must be assigned to control.)
Upper Limit/View Slat Position

1. Follow Steps 1- 3 of the Lower Limit/ Privacy Slat Position steps to adjust for the Upper Limit/View Slat Position.

2. Hold the Open or View button on the Pico wireless control for about 10 seconds until the shade/blind button blinks and turns off.

Lower Limit/Privacy Slat Position

1. Tap the shade/blind button on the shade/blind you want to adjust. The shade/blind button illuminates green.

2. Simultaneously, hold the Open and Raise buttons or View (Open) and Jog-Open buttons on the Pico wireless control for about 10 seconds, until the shade/blind button blinks and remains lit.

3. Use the Pico wireless control's Raise and Lower buttons to adjust the shade position to the lower limit you prefer or the Jog-Open and Jog-Closed buttons to position the blind slats as desired.

4. Hold the Close or Privacy (Close) button on the Pico wireless control for about 10 seconds until the shade/blind button blinks and turns off.

Set a Favorite Level for Shades/Blinds

(Note: Shade/Blind must be assigned to control.)

1. Use the control's **Raise** and **Lower** buttons to adjust the shade to desired level or **Jog-Open** and **Jog-Closed** buttons to move the blind slats to the desired position.

2. Hold the **Favorite button** on the Pico wireless control for about 10 seconds until the shade/blind button blinks.

Restoring Shades/Blinds to Factory Default

(Note: This step will remove any controls assigned to the shade/blind. It will not affect the shade's upper and lower limits/blind's view and privacy slat position.)

1. Tap the shade/blind button quickly three times and hold the shade/blind button after the third tap until the shade/blind button LED blinks green rapidly.

2. Immediately tap the shade/blind button quickly three more times, until the shade/blind button LED blinks green rapidly, then blinks red/green three times, and turns off.
